The Future.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Feb. 14.—Whether the resolution presented in the legislature this morning asking that a special session of congress be held to pass on the revision of tariff immediately will bear fruit or not is a question. The resolution was presented by Assemblyman Ledvina of Manitowish as a joint measure and requests that congress pass immediately upon revision of the present tariffs.

The resolution was to be sent to the Wisconsin members of the present congress to urge their hearty cooperation and its real purpose is to have a special session of congress called to take up this matter. The resolution coming at this time has caused considerable comment in view of the fact that Senator Spooner has recently announced his favoring an immediate revision of present schedules.

FOUR MEN WILL HANG IN KENTUCKY TOMORROW

Two Are To Die For Assault On Fifteen-Year-
Old Girl, Another For Killing A Fellow
Convict, And a Third For Mur-
der To Rob.

[SPECIAL TO THE GAZETTE.]
Lexington, Ky., Feb. 14.—Unless there is an unexpected exercise of clemency four men will die on the gallows in Kentucky tomorrow for crimes they have committed. Two of the men received the death penalty for criminal assault, while the other two die for murder. Only one of the doomed men is a negro.

Guy Lyon and W. R. Fletcher are to be hanged at Russellville for criminal assault. At the same time and place Ben Huffaker is to be executed for murder. At London, Laurel county, Jesse Fitzgerald, a negro, is to be hanged for murder.

The crime of which Lyon and Fletcher were convicted attracted widespread attention. About two years ago they attacked the camp of an aged German named Glader in Logan county, and outraged the fif-

teen-year-old daughter of the aged man. Both the men were married and had families. When they were arrested, and the girl in broken English told the story of her brutal treatment, a company of state troops was all that saved both men from being lynched by a mob.

Huffaker's crime was the murder of a fellow-convict in the Eddyville branch penitentiary. With a knife he attacked Ben Shiry, with whom he had quarreled, and killed him.

The negro Fitzgerald, with a negro named Amy Henson, killed Mrs. Martha Broughton in Knox county for the purpose of robbery. They cut her head off. When they were trailed with bloodhounds and arrested the woman confessed. The Knox county jail was stormed by a mob, but state troops guarded the two murderers and brought them to Lexington for safe keeping.

SENATOR KNOX SPOKE FOR REED SMOOT THIS MORNING

Pennsylvania Senator Takes Part Of The
Gentleman From The State Of
Utah.

[BY ASSOCIATED PRESS.]
Washington, D. C., Feb. 14.—Senator Knox made an address in the senate today in support of Reed Smoot to his seat in the senate. Knox insisted that the United States has guaranteed religious toleration. Smoot should remain. He said all agreed as to Smoot's unblemished character and qualifications as a senator, saying: "The only things alleged against Smoot is that he tolerates polygamy. If this disqualifies him every citizen of Utah, Mormon or Gentile, is likewise disqualified, who likewise refrain from prosecuting the old Mormon polygamists, and they all do."

Declaring that polygamy is dying out and that polygamist marriages have ended in Utah, Mr. Knox said: "I do not see how the sanctity of the American home is at stake in this issue. If the Mormon church teaches polygamy and encourages its practice, surely the fact that Senator Smoot is a monogamist and has from his youth up set his face and lifted up his voice against polygamy is conclusive evidence that he is fighting by precept and example for the sanctity of the American home against his church and under circumstances requiring the greatest moral courage."

If, on the other hand, the Mormon church is not teaching and encouraging polygamy, the argument that the sanctity of the American home is involved here utterly fails. You may take either position and it will lead to Senator Smoot's complete vindication and to the certain conclusion I have indicated, that the purity of the American home is not in jeopardy. You may take either horn of the dilemma. If the church is teaching polygamy, it is blameless, and the whole case against Smoot fails. "We are all sworn to support the constitution of the United States. Personally, I construe this to mean that I have solemnly obligated myself not to vote to deprive any person of state or any right guaranteed by that instrument."

"Entertaining this view, and for the reasons I have stated, I could not yield to the importunities, and in some cases the demands, that I cast my vote for Senator Smoot's expulsion without deliberately violating my oath of office; without yielding my judgment to others as it is alleged Senator Smoot will yield his to the Mormon church; and without converting my place here from one of honor to one of shame."

Irving B. Dudley

Hon. Irving Bedell Dudley, United States minister to Peru, was born at Jefferson, Ohio, on November 30, 1861. Young Dudley first attended Kenyon college, at Gambier, Ohio, where he graduated in 1882. Three years later he received his degree as a LL. D. He went to California and began the practice of his profession at San Diego in 1885. Entering politics, he was made city judge of San Diego and served two terms in this position. Judge Dudley was made a member of the republican state executive committee for California in 1896. He had by this time attracted the attention of the President, who named him as minister to Peru in June, 1897. Minister Dudley still maintains his home at San Diego, Cal., although his official residence is now at Lima, the capital of Peru.

..Forty Years Ago..

Janesville Daily Gazette, Thursday, February 14, 1867.—Canvassing, in behalf of the Colored Church, two canvassers—Joseph Houston and Nelson Warren—are soliciting funds in this city, to aid the colored people in providing themselves with a place to worship. It is a most worthy object and ought to enlist the sympathies and aid of the well wishers of the community.

Another Fire.—A fire broke out about eight o'clock this morning, in the wooden building on West Milwaukee street, owned by D. Davies, Jr., and occupied by Davies Bros. as a grocery store, on the first floor, and by Mrs. Schofield, for embroidery rooms, on the second floor. The flames were first discovered near a stove pipe which ran through the roof, and from which the fire doubtless originated. Prompt rallying of assistance prevented any great damage, though the chance was a narrow one for a lively conflagration, for a few moments. Perhaps \$200 will cover the loss. No insurance.

Burglary.—The residence of John Watson on North Second street in the Second Ward, was entered last night by some scoundrel, and the contents of Mr. W. were rifled of \$300. Entrance to the dwelling was effected by turning the key in the door lock with forceps or some instrument of that kind.

A Bad Thing to Do.—It may be considered a rather objectionable method of keeping out water around a stove pipe, where it runs through the roof, to pack the aperture with an old coffee sack and tar, as is reported to have been the case where the fire originated this morning. Tin or something of that nature is said to be better.

A City Marshal Needed.—Our city sadly needs an officer in the nature of a marshal who should have sort of a general police authority. If one of the duties was to examine premises as to their security against fires, and see that stove pipes are thrust out of windows, or through openings made by knocking off a clap board, or do the office of a chimney through the roof, we should have fewer conflagrations.

As Ford is reported dangerously ill at his home here.

D. Casey and Ed. Ford went to Rubicon last Friday to attend the funeral of Mr. Ford's brother.

Mrs. Anna McCarthy of Fairfield, a native of Rock County, summoned beyond.

Fairfield, Feb. 13.—The angel of death has again entered our midst and taken our friend and neighbor, Mrs. Anna McCarthy. Anna Jane Dykeman was born in Bradford, Wis., March 15, 1866, being the youngest daughter of Mr. and Mrs. Cornelius Dykeman. She was united in marriage to William McCarthy Oct. 20, 1892, who with their two children has preceded her to the world beyond. After an illness of a little over two months she peacefully and quietly passed away Thursday morning, Feb. 7, at eleven o'clock. She had filled a place that none other can fill, but her earthly sufferings are over and she has gone, where we may all meet again. The funeral services were held Saturday afternoon at two o'clock at the church, Rev. Coffman conducting the services. The singers were L. Wright, W. Rhoeborn, R. Youngs and W. Rodman of Darlet. She was tenderly laid to rest beside her husband and children in the Darlet cemetery. She leaves to mourn her death two sisters: Mrs. M. Smith of Oklahoma and Mrs. Ella Johnson of Darlet, and four brothers: Edgar of Delavan and William, Bert and George of this place, and a host of friends.

Bacon Objects to the Treaty.

Washington, Feb. 14.—The new treaty with the Dominican republic was the subject of consideration by the senate committee on foreign relations Wednesday, but owing to Senator Bacon's opposition, no progress was made towards securing a favorable report. Mr. Bacon finds the new treaty objectionable on the same ground as the old, because he considers our interposition in Dominican affairs unwarranted.

F. E. Niles and Miss Gussie Niles of Broadhead were in the city this morning.

WISCONSIN WEATHER FORECAST

Fair tonight, Friday; warmer Friday.

TARIFF WITH GERMANY

In a tariff war with America Germany would be at great disadvantage, says the Washington Post. What we sell to her we can find a market for elsewhere. What she buys from us—60 per cent of it—she can get nowhere else, and she is bound to have it or shut up shop. Thus we can contemplate the threatened war with considerable complacency. Germany must have our cotton or stop her looms; she must have our copper or close her shops; she must have our provisions, or go superstitious to bed. We can get sugar without going to Germany for it. We can get practically everything Germany has to sell without buying it of Germany.

This paper is not an authority on the tariff, though it has not hesitated to criticize the radical stand of our stand-pat friends; but in this quarrel with Germany we believe they are securely entrenched, though it would be better for both countries if a reciprocity agreement were entered into whereby we would sell more to and buy more of the great continental empire.

It will be an interesting question when congress gets hold of it, and there will be sharp controversy over it. Evidently the Roosevelt administration is anxious to avoid a tariff war, but a stand-pat congress has the last say.

FOR THE NEXT DICTIONARY

To hanks, a transitive verb meaning to turn down for having told tales out of school, says the Wall Street Journal.

To alphabetize and geographize, means to spend months in preparing to begin to get ready to commence to classify votes to be counted, as in the canvass of life insurance votes, at a cost of several hundred dollars of policyholders' money a day.

To snoop, to investigate under personal or official auspices in order to discover abuses. To try to make out a case against people who are doing things. Official snoopers are known as government investigators, private snoopers as roving sociologists.

To skibo, to cut short toward the end, as in spelling the word "through" with the four letters "thru." This verb has no historical relation with skiddoo, but there is a segment of meaning common to both.

To stand pat is to stand still, to stick in the mud, to become a trillito, i. e., to become extinct by fossilizing, and sooner or later to be put on the shelf as a curio.

GERMAN AND RUSSIAN ELECTIONS

While the German Kaiser is rejoicing at the defeat of the socialists, the Czar of Russia is said to be anxious about the elections to the Duma. Yet the two events illustrate the same general tendency; but the governing powers are on different horses. The triumph of the imperial policy in Germany is a victory for the progressive spirit, and the defeat of socialism is the defeat of the reactionary element of economic policy. For socialism is, in the last analysis, not progressive but the opposite. In Russia the reactionary element is in the bureaucracy, and the progressive spirit is represented in the candidates who are winning places in the Duma. The spirit of progress in different ways is asserting itself in both for a common end.

New candidates for city offices pop up every day. This spring promises to bring surprises to many. Some pleasant ones, some that may hurt. It is all in the political game and when a man seeks a public office he must expect to take the bitter with the sweet.

In organization is victory and the man who seeks office and goes into the campaign with the determination to win has half the battle won before he starts. The man who derides his opponent's ability is a weak sister and should deserve defeat.

Good men are needed in the city council and now is the time to get them. Important matters of city government are continually coming up and the time to select the men who will lead the destinies of the city is now and not after the election.

Many persons would be glad to give up politics during lent but can not. The next forty days will see lots of smooth talking by some men who forget there is any such thing as self-denial.

Governor Davidson fixed his ideas of reform and then sat down to wait. He has not yet scolded the members of the state lawmakers as has been done in the past because the majority fail to agree with him.

Edison is to give up actual work and now devote his declining years to play. That is, he will stop working sixteen hours a day for the mechanical world and work eighteen for the scientific.

Mighty few of the men who are walking about the earth today feeling cheery will have their birthday celebrated as a national holiday a hundred years from now.

Senator Knox told the United States senators today why Reed Smoot should not be fired from the Senate and he meant it too.

Another awful loss of life through shipwreck off the New England coast. Some one blundered and human lives paid for the blunder.

The Chicago campaign is on. The fight has begun. Harrison has come back and he and Dunne are after the nomination hot and heavy.

Think of it. King Edward neglected to say anything about spelling reform or race suicide in his address from the throne.

Members of the legislature are full of talk as to what they are going to do when they really get down to bed rock.

One of the slime pits referred to by Rev. Vaughan last Sunday was closed up even before it was opened recently.

Western Union Telegraph operators will gladly accept the increase pay at so much a tick.

Chicago wants a new city hall. Why not build it on the easy-payment system.

The mails are all gummed up with the sugary drippings of the valentines.

PRESS COMMENT

Prohibited.
Oshkosh Northwestern: But how can they present a play called "Raffles" here, when raffles are prohibited by the law?

Certainly Not.
Exchange: Of course there is no law compelling you to read it if you don't want to.

Farson the Irrepressible.
Rockford Register-Gazette: It's hard to keep John Farson and his red necktie down. His chauffeur is one of the new Shea jury in Chicago.

Monkey-Dinner Harry Abroad.
Milwaukee Sentinel: By administering a good stiff jolt of some kind to Harry Lehr, the Kaiser can do much to promote cordial relations with Uncle Sam.

"An Undeveloped Factor."
Racine Journal: An undeveloped factor is to further delay the trial of Manager Davis of the ill-starred Iroquois theater. Undeveloped factor is good.

People Have to be Patient.
La Crosse Leader-Press: It is four years since Reed Smoot took his seat in the senate and yet a vote upon his right to that seat is yet to be taken.

Spelled Differently There.
Sheboygan Journal: George F. Grasse declares that Sheboygan's own E. B. Mattoon is the "sleekest and best looking of them all." In Sheboygan we are accustomed to spelling it "sleek."

Somebody Had to Say It.
Exchange: The bill compelling actresses to wear skirts reaching four inches below the knees, now before the general assembly at Madison, ought to provide for a commission of bald headed men to see that it is enforced.

These Oily Tongued Diplomats!
Fond du Lac Reporter: Bouquets across the sea is the latest. Ambassador Bryce said at a farewell banquet given him in London that he was in doubt whether he was going to the western hemisphere or to another and better world.

His Childlike Conviction.
El Paso Herald: Senator Beveridge announces the fact that he never carries an umbrella, whatever the inclement, with his usual naive and childlike belief that there is an intense interest in the details of his personal natural history.

Wisconsin's Seminole Veteran.
Fond du Lac Commonwealth: Capt. J. A. Rappe, the Marinette veteran of three wars and who, by the way, is well known in Fond du Lac, though 92 years old is still husky enough to knock the props out from under the Missouri veteran who claims to be the only surviving veteran of the Seminole war. Rappe is from Wisconsin but he possesses one Missouri characteristic—he has to be "shown."

Modern Sunday in Boston.
Exchange: Boston yearns for the old-fashioned Sunday when a cigar could be bought in town by those who were brave enough to smoke the Connecticut article and refuses to be comforted by the allegation that it is better for the public health to have cabbage leaf incineration shut down for one day in seven.

Several Watching the Mails.
Madison Journal: A Dr. Weil of Rison blushing admits that he is to be appointed United States marshal for the eastern district of Wisconsin. That Oshkosh Upheaval.
Fond du Lac Commonwealth: The upheaval, which occurred at Oshkosh a few days ago, and which was thought by many of the denizens of that city to be an earthquake, has called forth considerable comment by the state press. The most surprising

feature, about it, however, is that the enterprising correspondents of the Chicago and Milwaukee papers who date their stories from Appleton, should have allowed such an event to be pulled off at a rival point.

"Whacking up" in Escanaba.
Superior Telegram: And now Escanaba, Mich., comes to the front with its little contribution to the general volume of current official municipal scandal in the country at large. Incidentally it may be remarked that the most of those who are responsible for the municipal scandals of this country are also at large. But in Escanaba an alderman has formally made charges that the chief of police and one of the justices (Escanaba has no municipal court) whacked up \$10.50, all the money a prisoner arraigned on a drunk and disorderly charge had, and there was agreement between chief and justice as to the items to be entered in their respective records, so that there should be no vexing discrepancy between them. It is but fair to both chief and justice to state that they strenuously deny the alleged facts. An inquiry is under way.

ANTS AS HONEY-MAKERS.

Their Production Very Similar to That of the Bee.

The ant honey has an aromatic flavor suggestive of bee honey, and is agreeable to the taste, says H. C. McCook, in Harper's for June. An analysis made by a competent chemist of the product of the Mexican species showed a nearly pure solution of the sugar of fruits, differing from grape-sugar in not crystallizing. The Mexicans and Indians have, or had at the period of these studies, several uses for the ant honey. They eat it freely. The late Prof. Cope, when in New Mexico, had a plate of round loaves offered him as a dainty relish. Dr. Loew reported that the Mexicans press the insects and use the honey at their meals. They were also said to prepare from it by fermentation an alcoholic drink. Another naturalist learned that the natives apply it to bruises and swollen limbs. It has been suggested seriously that these ants might by culture attain the rank of bees as honey producers. The difficulty of farming the colonies, and the limited quantity of the product, would prevent a profitable industry. The average amount of honey in a single round was by weight about 40 (0.3942) grams, a little over eight times (.82) that of the ants' body. But counting the number of rounds in a nest at 600—almost the observation would justify—the entire product would be only two-thirds of a pound tray, collected at the cost of all the honey-bearers' lives. Such results disbar those insects from the field of human industry.

PICRIC ACID FOR BURNS.

Scientist Claims It Will at Once Banish All Pain.

Put your finger in the fire and it need not burn. Chance led to the discovery of a remedy which instantly will cause burns to cease from being painful and also causes injured flesh to heal with marvellous speed.

Dr. Thierry, a physician in the Paris Charity hospital, was in the habit of using picric acid as an antiseptic, so that his hands were impregnated with the solution. One day in lighting a cigarette he dropped a portion of the burning match in his hand, but instead of feeling it he noticed not the slightest pain.

A short time afterward while sealing a letter some of the burning wax stuck to his finger, and though it cauterized the skin, he felt nothing. He began a series of experiments in healing burns with a saturated solution of picric acid. All pain instantly was suppressed. After having bathed the wound in a solution of this acid blisters did not form and a cure was effected after four or five days.

The only inconvenience was that the acid colored the skin yellow. But this is rapidly remedied by washing with boric acid. The cheapness of picric acid and the ease with which a proper solution is prepared have induced many Parisian manufacturers to place jars within easy reach of their workmen.

Gaul's Terra Cotta Houses.
At the Paris academy of fine arts. Commandant Esperandien, director of excavations at Alesia, announced that recent finds had enabled the workers there to reconstruct a hut which had been inhabited by ancient Gauls.

These houses were neither of stone nor of thatch, but of terra-cotta. The Gauls had made this by placing a layer of brick clay on a network body and baling it in a double fire inside and outside simultaneously. Commandant Esperandien said that it was probable that the exterior of the hut was additionally protected by thatch.

Among the sculptures recovered are statues of a Gaulic chief and a cavalier, and also bas-reliefs picturing heads.—American Antiquarian.

International Electricity.
For the first time on record electricity appears as an article of import. The case has arisen between Italy and Switzerland, the Italian government conceding to that of Switzerland the privilege, on behalf of the town of Stabio, in the Ticino Canton, of drawing electrical power for industrial and illuminating purposes from water supplies on Italian territory, and principally from the Vizzola torrent. The power will be distributed not only in the town of Etavio itself, but in a wide district around. The amount of water rent to be paid to Italy is not stated.

INTERNATIONAL TRUST and SAVINGS BANK.

Capital \$200,000. CHICAGO, ILL. Surplus \$30,000. STOCK SELLING AT \$115 PER SHARE.

This is a new Chicago institution which will begin business on or about April first under the most favorable auspices. Chicago has invested in banks per capita but little more than 50 per cent, as much as Los Angeles, about 50 per cent, as much as Philadelphia, but 35 per cent as much as St. Louis, and but 12 per cent, as much as Pittsburgh, while in deposits has per capita about 30 per cent, as much as Los Angeles, Philadelphia and St. Louis, and more than 40 per cent, as much as Pittsburgh.

The returns on bank stock, from an investment standpoint, are sufficient to make such offerings alluring. Many of the wealthy and most prosperous men of the country acquired a large share of their wealth through accumulations accruing on the stock of some banks and trust companies.

Not one of the larger institutions has failed to return handsome dividends on their stock each year, and the increase of the book or market values has made the returns as large or larger than could have been obtained on any "safe" investment.

THE INTERNATIONAL TRUST AND SAVINGS BANK will be offered by Business Men and Bankers and will have on its directorate several of the influential and high-grade representatives of Union Labor.

You cannot better place your idle funds than by taking some of this stock. It is not too late to state that it will return at least 20 per cent annually during the next five years.

A limited amount of this stock is on the market at the price quoted above.

Certified checks or New York or Chicago exchange should accompany each subscription and should be made payable to the Organizers of International Trust and Savings Bank, or to Edwin C. Kingsbury & Co., bankers, No. 96 La Salle St., Chicago, Illinois.

WISCONSIN WEATHER FORECAST

Fair tonight, Friday; warmer Friday.

TARIFF WITH GERMANY

In a tariff war with America Germany would be at great disadvantage, says the Washington Post. What we sell to her we can find a market for elsewhere. What she buys from us 60 per cent of it—she can get nowhere else, and she is bound to have it or shut up shop. Thus we can contemplate the threatened war with considerable complacency. Germany must have our cotton or stop her looms; she must have our copper or close her shops; she must have our provisions or go supperless to bed. We can get sugar without going to Germany for it. We can get practically everything Germany has to sell without buying it of Germany. This paper is not an authority on the tariff, though it has not hesitated to criticize the radical stand of our stand-pat friends; but in this quarrel with Germany we believe they are securely entrenched, though it would be better for both countries if a reciprocity agreement were entered into whereby we would sell more to and buy more of the great continental empire.

It will be an interesting question when congress gets hold of it, and there will be sharp controversy over it. Evidently the Roosevelt administration is anxious to avoid a tariff war, but a stand-pat congress has the last say.

FOR THE NEXT DICTIONARY

To hanks, a transitive verb meaning to turn down for having told tales out of school, says the Wall Street Journal.

To alphabetize and geographize; means to spend months in preparing to begin to get ready to commence to classify votes to be counted, as in the canvass of life insurance votes, at a cost of several hundred dollars of policyholders' money a day. To snoop, to investigate under personal or official auspices in order to discover abuses. To try to make out a case against people who are doing things. Official snoopers are known as government investigators, private snoopers as roving sociologists.

To skibo, to cut short toward the end, as in spelling the word "through" with the four letters "thru." This verb has no historical relation with skidoo, but there is a segment of meaning common to both.

To stand pat is to stand still, to stick in the mud, to become a trilo-bite, i. e., to become extinct by fossilizing, and sooner or later to be put on the shelf as a curio.

GERMAN AND RUSSIAN ELECTIONS

While the German Kaiser is rejoicing at the defeat of the socialists, the czar of Russia is said to be anxious about the elections to the Duma. Yet the two events illustrate the same general tendency, but the governing powers are on different horses. The triumph of the imperial policy in Germany is a victory for the progressive spirit, and the defeat of socialism is the defeat of the reactionary element of economic policy. For socialism is in the last analysis not progressive but the opposite. In Russia the reactionary element is in the bureaucracy, and the progressive spirit is represented in the candidates who are winning places in the Duma. The spirit of progress in different ways is asserting itself in both for a common end.

New candidates for city offices pop up every day. This spring promises to bring surprises to many. Some pleasant ones, some that may hurt. It is all in the political game and when a man seeks a public office he must expect to take the bitter with the sweet.

In organization is victory and the man who seeks office and goes into the campaign with the determination to win has half the battle won before he starts. The man who derides his opponent's ability is a weak sister and should deserve defeat.

Good men are needed in the city council and now is the time to get them. Important matters of city government are continually coming up and the time to select the men who will lead the destinies of the city is now and not after the election.

Many persons would be glad to give up politics during lull but can not. The next forty days will see lots of smooth talking by some men who forget there is any such thing as self-denial.

Governor Davidson fixed his ideas of reform and then sat down to wait. He has not yet scolded the members of the state lawmakers as has been done in the past because the majority fail to agree with him.

Edison is to give up actual work and now devote his declining years to play. That is, he will stop working sixteen hours a day for the mechanical world and work eighteen for the scientific.

Mighty few of the men who are walking about the earth today feeling cheery will have their birthday celebrated as a national holiday a hundred years from now.

Senator Knox told the United States senators today why Reed Smoot should not be fired from the Senate and he meant it too.

Another awful loss of life through shipwreck off the New England coast. Some one blundered and human lives paid for the blunder.

The Chicago campaign is on. The fight has begun. Harrison has come back and he and Dunne are after the nomination hot and heavy.

Think of it. King Edward neglected to say anything about spelling reform or race suicide in his address from the throne.

Somewhat Growsome Humor.

A well-known city officer in Auld Reekie was celebrated for his cunning and wit. His mother having died in Edinburgh, he hired a hearse and carried her to the family burying place in the Highlands. He returned with the hearse full of smuggled whisky, and being teased about it by a friend, he said: "Oh, man, there is no harm done! I only took away the body and brought back the spirit."

"He Had To Acknowledge The Corn."

The other day, a dental traveling man was in to see Dr. Richards to sell him some goods.

In visiting together the doctor showed him some of the beautiful work he is putting out among his patients.

And asked him point blank, "do you see any such beautifully finished work as I am doing?"

"Of course," the traveling man hesitated saying much, considering the fact that he sold goods to all the dentists in the city.

But he did acknowledge that this work was more finely finished than any he had seen in Janesville.

Now, the specimens shown him were not special cases, but just regular finished work the same as Dr. Richards gives everybody.

You can fairly see your face reflected so fine the polish he puts on his rubber plates. Now all this means "extra work."

Extra care taken to give you the best there is.

And his prices are another attractive feature.

His patients never feel like calling him Dr. Big Fee.

Try him yourself for your next needed dental work.

SURPRISED OFFICER BENEKE AND WIFE

Forty Friends Carried Out Plans—Sophomore Girls Entertained High School Faculty.

Patrolman Fred Beneke and wife were surprised by forty friends at their home, 58 Highland avenue, last evening. Mr. and Mrs. Beneke had invited in a few neighbors to spend the evening and were enjoying some music when their home was stormed and taken possession of. The hours were very pleasantly spent, and an elaborate supper, provided from hampers which the self-invited guests had brought, was served.

At the High School.

The seven girls of the Sophomore domestic art department at the high school entertained the members of the faculty at a pretty valentine party last evening. The company was held in the school dining room, where the walls, chandeliers and tables had been tastefully decorated with paper hearts. Candles furnished the light. At five o'clock a delicious three-course supper, prepared by the young ladies under the direction of Miss Laura Colman, was served.

BICKNELL COMPANY HAS PROPOSITIONS

Several Cities Have Offered Inducements to Local Concern and Stockholders Will Consider Them.

Propositions having been received from a number of cities the stockholders of the Bicknell Hardware company will meet Saturday to consider moving from Janesville or the feasibility of building larger quarters here. When interviewed today Superintendent H. S. Bicknell said: "We have outgrown this building and must have a new one. We are uncertain now as to our future course but will be able to say more Saturday, when the stockholders will gather. It is probable that we will decide to have a foundry of our own and then a larger factory building will be needed. Besides discussing the situation here we will look-over offers from elsewhere. One city will furnish a factory building—just the kind we want. Beloit will give an acre of land worth a thousand dollars at one hundred dollars; other places have asked us to let them know what we want."

YEAR IN PRISON FOR THEFT OF DOUGHNUTS

Albert Dorsey Pleaded Guilty to Charge of Petit Larceny, Second Offense, Today.

For stealing three dozen Bicknell & Lane doughnuts Albert Dorsey will spend one year in the state penitentiary at Waupun. Petit larceny, second offense, was the specific charge against him and after he had entered a plea of "guilty" this afternoon, Judge Fifield gave him a severe lecture, reminding him that his promise to reform when lightly punished for a similar crime about a year ago had been disregarded, that he had repeatedly been arrested for drunkenness by the officers, that he refused to work and was no good to himself or the community. Early in January the youthful Whitewater served a sentence in jail and coincident with his liberation Mrs. Mohe, another prisoner, missed three pairs of shears. As Dorsey had assisted her in carrying some of her belongings down cellar she entertained suspicions as to the identity of the person who had despoiled her of the cutlery. When he re-appeared at the bastille this week she abused him soundly and after he had been placed behind the iron gates and had started to make fun of the Beloit woman for the edification of the other male prisoners, her husband, Adam Mohe, who is serving a term for drunkenness, pounced on him. Dorsey may be taken to Waupun tomorrow.

HE WAS AFRAID OF GHOSTS.

Negro Wouldn't Dust a Table Upon Which a Man Died.

There is a large table in one corner of a police station in an eastern city which the police themselves have had to dust off lately. Recently a negro that was stabbed was carried into the station and died on the table. It is a part of the negro trusty's duties to dust the table every day. The day after the death the sergeant noticed that the table had not been dusted and he called the trusty.

"Dust that table," he said. The trusty took off his hat and made a low bow. "Look heah, sergeant," he said. "Ah always does what you tells me. Now, a nigger done die on dat table, and if Ah must take my choice of dustin' it, oh, braken rock, Ah ready fun de rock pile. Ah doan want take no risks with dem goses."

Where Cannibals Abound.

Cannibalism exists, in spite of the dictum of the report of the inquiry commission. Dr. Hinde has told that after one particularly murderous battle, in which the fierce Botetota tribe of Congolese negroes had been used against the Arabs, every member of these cannibal allies had at least one body to eat.

"All the meat was cooked and smoked-dried, and formed provisions for the whole of the force and for all the camp followers for many days afterward." Dr. Hinde presents a somewhat novel point of view: "During the war in which we were now engaged for two years, we reaped, perhaps, the only advantage that could be claimed for this disgusting custom. In the night following a battle or the storming of a town these human wolves disposed of all the dead, leaving nothing even for the jackals, and thus saved us, no doubt, from many an epidemic."—Everybody's.

HIS HAT MAN'S WEAK SPOT.

IN Nothing Else Do Convention's Iron Laws Show So Strongly.

There are things, it is a comfort to know, which even a man cannot do, and a man is supposed to be able to do almost anything.

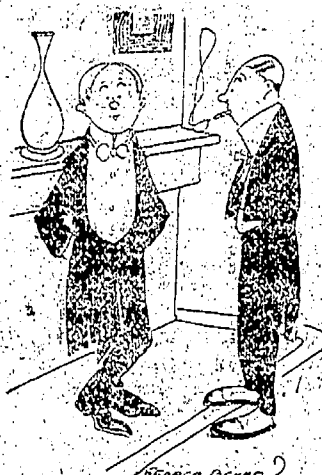

Now a novelist may put his heroine's hat on her head at any angle he chooses—it is one of the few privileges of womanhood—and leave her not a bit less charming or dignified, but I defy him to put his hero's hat at a rosy angle over his ear at a crucial point in his career and leave him still heroic!

The Achilles heel of a man is his hat. He must guard that, as he does his reputation, for it is at once his strength and weakness, says a writer in Putnam's Monthly.

It would hurt an archbishop less in the eyes of the public to commit a crime than to wear his hat on the back of his sacred head—real back!—and so exhibit himself to his distressed diocese.

Still, if he is so inclined, why should not a good and great man wear his hat over his nose without creating unfavorable comment? The fact is, he cannot. He is ruled by convention, and convention is red tape of society.

The castiron laws of fashion, which is only another name for convention, are such that if the greatest man in England were to walk with all his accustomed dignity from the Marble Arch to the bank with a trailing peacock's feather attached to the band of his silk hat he would be followed by a mob in two seconds and by the time he reached Vere street the outraged majesty of the law would take him into custody as a suspicious character.

"Boy, your purse is about to propose to that heiress." "Has he thought the matter over carefully?" "Oh! yes, he has even made preparations for supporting himself in case she refuses him."

WANTED TO KNOW IT ALL.

Kentuckian Thought of New York as a Farming Community.

A traveler in the more thinly settled mountain districts of Kentucky, as a rule, will meet with hospitality wherever he encounters the natives, but insular mind and character abound, says the Chicago Record-Herald.

A backwoods host and his guest usually sit before the door with the visitor, and family in the early evening. One recent sojourner in the land endeavored in return for rapt attention, to picture at length the superior attractions of city life and scenery.

"In New York," he said impressively, "there are buildings taller than the highest pines and sycamores of these mountains. In one block alone are a dozen called skyscrapers each containing a larger population than this county. On one avenue there are miles of millionaire mansions. At night the busier streets are bright as noon. One called Broadway has more electric lights than there are stars in a clear sky."

A pause to note the effect of his account was followed by a long silence. Presently, when it seemed that the subject was about to be forgotten, a voice from the stillness inquired with deep interest:

"Say, mister, in that New York city is thur much corn and oats?"

"Yes, indeed."

"Much lumber?"

"Great quantities."

"How 'bout gingseng?"

"Plenty. More of everything there than any other one place alive."

"But thur ain't much live stock?"

"Oh, yes; there is."

"Poultry?"

"Flocks."

A sigh of reluctant capitulation from the earnest questioner and another deep silence ensued. Finally the same voice broke the silence again:

"Plant early or late?"

The cash in the till takes up less room than the garments on the racks. This is our excuse at this season of the year for the sweeping price reductions on READY-TO-WEAR GARMENTS. It's a good logical excuse and when the lots offered fill your present needs, then is your opportunity to make your dollars do their full duty.

Fur Coats for Women-- Our present stock consists of about 25 reliable fur coats as follows:— We mention the regular selling prices, at which we have held them all the season, but now we offer them at a reduction of 8 to 30 dollars. **Fine Nearseals** at \$85 to \$85; sizes 34 to 40. **Wool Seal Auto Coats** at \$65. One Beaver Coat, size 40, at \$125. One Otter Coat, size 36, at \$185. Surely a better opportunity was never presented to purchase a nice fur coat at such a small price.

Cloth Cloaks-- We offer all of our best garments at ½ price. We have but a few black cloaks left, but emphasize particularly the beautiful light cloaks, many suitable for spring wear, in tans, mixtures, plaids and checks. These desirable cloaks at ½ price merit the attention they are receiving.

500 Suits, Black Mostly-- Never were better suits put on sale at \$5.00. Women are buying them eagerly and are thoroughly pleased. These suits are the same that only a few months ago were \$10 to \$18. The styles are good; simply a matter of getting fitted. Don't forget about these suits, for they are bargains worthy of the name, and will help out many a woman anxious to economize.

Skirts at \$2.00-- We have about 15 left, that we are closing out to make room for spring arrivals; values up to \$12.00.

Probably 90 Altogether-- We have two racks of winter cloaks, carried over from 1904 and 1905—cloaks for women, misses and children, and during our January sale we marked them at prices ranging from \$1 to \$10, which were low indeed for the grade of garments. However, to sell out every garment before spring, as we need the room badly, we offer them now at ½ of the marked down figures. Just think of buying 50c, \$1.00, \$1.50, \$2.00, \$2.50, etc. well made cloaks at such prices as...

95 Gray Wool Skirts-- A manufacturer had on hand a quantity of gray all wool cloths and we figured with him to make the lot up into skirts, which he did, and at a price which enables us to offer them, assorted styles and qualities, waist bands 22 to 36 inches, lengths 39 to 43 inches, at \$5.75. Any woman looking for a good sensible skirt for service should remember this lot at \$5.75. Alterations free.

Satisfied customers are the best advertisement a store can have. We have made many sales on ready-to-wear garments through satisfied customers who have told their neighbors about the bargains they got at THE BIG STORE.

SENATE PASSES APPEAL BILL.

Government May Carry Criminal Cases to Supreme Court.

Washington, Feb. 14.—The senate Wednesday passed the bill giving the government the right to appeal to the supreme court for a construction of the constitutionality of any law involved in a criminal suit.

The District of Columbia bill, carrying nearly \$11,000,000, was passed after an hour's consideration.

The bill establishing an agricultural bank in the Philippines, was taken up for consideration but difficulty was encountered because the Philippine tariff bill, which passed the house at the last session, was interposed as an amendment by Senator McCreary of Kentucky.

What Would You Do

If three good physicians should pronounce your case hopeless. If they should decide that you could not live longer than six weeks. And if you should get well, after using only \$12.00 worth of Dr. Miles' Heart Cure and Nervine, what would you advise a friend in like condition to do?

"I have to thank you for saving my wife's life two years ago. We had consulted with the doctor until the third doctor, like the two previous ones, said that nothing could be done for her; that she had better be taken home from the hospital to quietly wait her time, which would not be over 6 weeks at the most. I brought her home, and then I thought, 'probably Dr. Miles' Heart Cure and Nervine might help her. So I got a bottle of each and some Nerve and Liver Pills and commenced to give them to her. We soon saw an improvement, and encouraged by this we continued giving the medicine. We gave her eleven bottles in all of the medicine. She takes it occasionally now if she feels the need. I am in the ministry, and have been for 14 years."

REV. P. MILLIGAN, Genoa Springs, Kans.

Dr. Miles' Heart Cure is sold by your druggist; who will guarantee that the first bottle will benefit. If it fails he will refund your money.

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without the discharge, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of curing such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional endorsement of each of its ingredients as this. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the medicine. Its ingredients are selected from the most reliable sources and are regulated by the female system, and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors, no medicine will. It is, however, a powerful agent, taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing are invited to consult Dr. Pierce's Medical Adviser. All correspondence is held as strictly private and sacredly confidential. Address: Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages), is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

A DANGER AT THIS TIME

Warning to the Public Against Deadly Drugs Disguised as "Balsams," in "Whisky," Etc.

At this time of the year, beware of the balsams of this and balsams of that, so-called "cough cures," which contain morphine, chloroform and other deadly drugs in quantity large enough to kill. Many of these "sympoms" and "balsams" are particularly fatal to children. One of these mixtures is also loaded with whiskey. We warn you against these dangerous mixtures that contain poisonous drugs, narcotics or opiates. These drugs deaden the nerves and weaken the body, while the disease gets a stronger hold. If you have a severe cold, and take these poisonous drugs, the effect is to stop secretion, along the breathing tract, congestion and inflammation set in, and you are down with a serious lung trouble.

Without these drugs or alcohol, Father John's Medicine cures colds and all throat and lung troubles. By building up the body and keeping up the warmth, the system is given the fighting power to throw off disease. Father John's Medicine is all pure nourishment and the best protection against dangers from exposure and a run-down condition of the body.

"As She Is Spoke"

London Daily Graphic: It is a little painful to learn, the authority of Mr. Sidney Lee, that by the development of English teaching in America the Americans are becoming more accurate writers and readers of the English language than our own people. Respect for the English language and its grammar-book is a virtue which the citizens of the United States are not popularly credited. More often they are accused of murdering both the one and the other. To know, then, that we, if anything, are in worse case, should come as a shock to the average Englishman, and if it has the effect of making him mend his ways, the shock will have served an admirable purpose. No well-educated man of course, makes gross grammatical blunders. He is prone to say, "It is me," instead of "It is I." "These are them," instead of "These are they," but ordinarily he keeps within the hard and fast rules. That is not quite the point. There is a negative abuse of the language—slovenliness in construction, paucity of vocabulary. These are the all too common faults displayed not only in letter-writing, but in print, not only in common conversation but in public speeches. They are not faults that can be corrected by the

Learning of rules, but they can never be found in the man who realizes that words—individual words—have a beauty of their own, and who makes a practice of reading the works of those combining in their style singular charm and simplicity. To compare the level flow of Walter Pater with the writing of any average "new" book would be a good introductory lesson.

GREAT SACRIFICE SALE

\$12,000

WORTH OF

FURNISHINGS MUST BE REDUCED

and Cost. Less Than Cost and Half Cost Prices Will Prevail—Beginning FRIDAY, FEB. 15th.

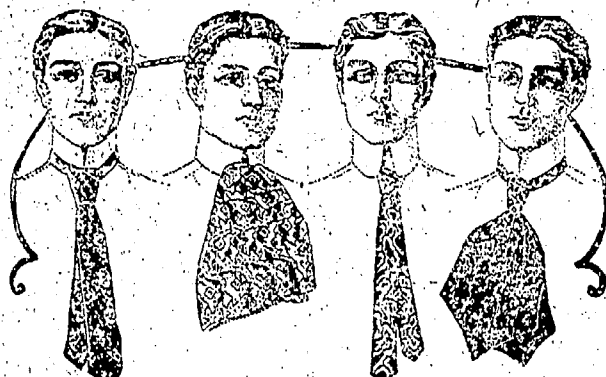

On March 11th we begin our annual inventory, and before that time every department MUST be down to a certain point in quantity of stock. We have hammered down our Clothing and Overcoat stocks—now we find over \$12,000 wrapped up in the choicest line of Men's, Boys' and Children's Furnishings imaginable. This figure is not exaggerated in the least. It's a big amount to claim, but the stock is here and we would be overjoyed if we could say it were one-half its present size, because we would then be that much better off in dollars and cents. **WE MEAN TO REDUCE IT.** No quibbling about the ways and means for this reduction; we will handle the matter with bare knuckles --and by this we mean that EVERY DOLLAR'S WORTH OF THIS ENORMOUS STOCK GOES AT COST, MUCH OF IT WILL BE PUT DOWN BELOW COST, AND ON SOME WE WILL BE SATISFIED TO SECURE HALF THE ORIGINAL COST.

AN EPOCH IN THIS STORE'S BARGAIN EVENTS

Never before have we arranged a sale which meant so much profit to the public and so much actual loss to ourselves, and lucky it is that but four weeks are to be allotted for this great reduction. There has never been a time before in our history when we gave free entry to our entire furnishing stocks without reserve. **A WORD ABOUT QUALITY:** Not a person who can say other than that we have always carried out every statement regarding our special sales or general business to the letter. We have prided ourselves on doing exactly as we have advertised. This sale will be no exception but will rather enhance our reputation. **THESE LINES OF FURNISHINGS** are the highest qualities—the very best makes in the country. We have always handled only those goods which will give the greatest satisfaction, the best wear; we **NEVER HAVE SOLD AND NEVER WILL SELL THE CHEAP SORT**, and we do not want this stock confused with anything inferior. It is the very best in everything and your money will secure qualities such as you never even dreamed of heretofore; and in reading and considering the offerings these facts should be borne in mind. Every article is strictly and absolutely guaranteed; money is always cheerfully refunded if a shadow of a doubt exists as to this point.

We desire to urge upon you the necessity for early attendance upon this sale; while the stocks in the various departments are very large, yet sizes even in the greatest assortment become broken, and those who seek first always secure the most satisfactory service. **INCLUDED IN THE FURNISHINGS ARE:** Hosiery, Gloves, Mittens, Shirts (dress, street, work), Pajamas, Underwear (Union and 2 piece), Sweaters, Jersey Coats, Jackets, Golf Coats, Golf Vests, Fancy Vests, House Coats, Bath Robes, Handkerchiefs, Suspenders, Nickwear.
